<p>Steps to Follow:</p> <ol style="list-style-type: none"> Using a bone scrapper, plastic scraper, or spoon, remove as much solid material as possible. Apply 2'n 1 Rug Spotter RTU directly to the spot following specific instructions on the label. Take caution not to over wet the carpet. Agitate the stain using the bone scrapper, plastic scrapper or spoon. Blot out 2'n 1 Rug Spotter RTU and the stain using an absorbent white cloth. Repeat steps 2 - 4 as need until the stain is removed. Rinse the area with Water. Extract or shampoo if required. Clean up your tools and return supplies to storage so they will be handy for the next time they are required. 	<p>Steps to Follow:</p> <ol style="list-style-type: none"> Blot or scrape up any material which might be present using an absorbent cloth, bone scraper, putty knife, or spoon. Apply 2'n 1 Rug Spotter RTU to the stain first, allow to dwell for 3 - 5 minutes. Agitate mildly with bone scraper. Blot dry with an absorbent cloth. This will breakdown and remove any oils present and prepare the stain for the next step in removal. Apply Water directly to the stain, allow to dwell for 3 - 5 minutes. Agitate with bone scraper or brush. Blot dry with an absorbent cloth. If the stain still persists, repeat steps 2 - 3 until the stain is removed. Extract or shampoo as required. Clean up your tools and return supplies to storage so they will be handy for the next time they are required. 	<p>Steps to Follow:</p> <ol style="list-style-type: none"> Scrape or blot up any marker which might be present using an absorbent cloth, the bone scraper, spoon or putty knife. Apply 2'n 1 Rug Spotter RTU to the stain first, allow to dwell for 3 - 5 minutes. Agitate mildly with bone scraper. Blot dry with an absorbent cloth. If the stain still persists, repeat step 2 until the stain is removed. Clean the area with Water. Blot dry with an absorbent cloth. Extract or shampoo if required.
